- ☐ current filed articles and registers support the authority and sole shareholding relied on;
- ☐ current records support the realised profits shown above after prior losses, tax, expenses, refunds, and distributions;
- ☐ the proposed dividend does not exceed profits lawfully available for distribution;
- ☐ Oark can pay tax, customers, creditors, and operating liabilities after payment;
- ☐ current Company-level tax, dividend WHT rate, and deadlines have been checked; and
- ☐ the payment is a return on shares and is not remuneration for work or a disguised personal expense.

If any box cannot truthfully be checked, no dividend is authorised by this record.
